All our products are made with **care and consideration for the people who make them and for the environment.**

B&C certifications & memberships

FAIR WEAR FOUNDATION

The Fair Wear Foundation (FWF) is a non-profit, multi-stakeholder organisation that aims to improve labour conditions in garment factories and is made up of more than 147 members.

Internationally and at regional level across garment production countries, the FWF advocates for the rights of garment workers while engaging with factories, trade unions, NGOs and governments. They develop a fair fashion norm by running brand performance checks, factory audits and trainings as well as managing a complaint helpline. In addition, they provide their members with base-line resources (e.g., Code of Labour Practices, training) and in-person follow-up with brand liaison in the field.

TEXTILE EXCHANGE

Textile Exchange is a global non-profit organisation that works closely with their members to drive industry transformation in preferred fibres, integrity and standards, and responsible supply networks.

Textile Exchange identifies and shares best practices regarding farming, materials, processing, traceability and product end-of-life in order to reduce the textile industry's impact on the world's water, soil and air, and the human population.

OEKO-TEX

OEKO-TEX® certifies that raw materials, intermediate and end products at all stages of production contain no substance harmful to people or to the environment. The B&C Collection (blank products only) range of T-shirts, polo shirts, sweatshirts and shirts are certified STANDARD 100 by OEKO-TEX®.

Member of amfori, the leading global business association for open and sustainable trade. For more information visit www.amfori.org

AMFORI BSCI

In a context of complex supply chains, companies are expected to improve visibility over their production and to drive improvements across their supply chains wherever applicable. The amfori Business Social Compliance Initiative (BSCI) is an industry-driven movement enabling companies to improve social performance in their supply chains.

For this, amfori BSCI conducts audits to assess workplace standards across the global supply chain and ensure that all suppliers are treating workers ethically and legally.

PETA CERTIFIES B&C AS 100% VEGAN

We're proud to announce that we are officially certified by PETA as an approved vegan brand. It means there are no animal products involved in any part of the creation of our products. PETA (People for the Ethical Treatment of Animals) is the largest animal rights organisation in the world, with more than 6.5 million members and supporters. The companies that have signed PETA's statement of assurance have verified that neither they nor their ingredient suppliers conduct, commission, or pay for any tests on animals for their ingredients, formulations, or finished products anywhere in the world and won't do so in the future.

BETTER COTTON

Better Cotton aims at helping cotton growers converting to more environmentally friendly, and socially and economically sustainable farming methods (more efficient use of water and chemical inputs), but also to meet growing consumers' demand for more sustainable cotton. Fees paid by members also support trainings for farmers.

By choosing our ROYAL line cotton products, you're supporting our investment in Better Cotton's mission.

OCS CERTIFICATION

The B&C INSPIRE T-shirts and sweatshirts are made with OCS certified Organic Cotton. Products certified to the "Organic Content Standard/OCS" contain organically grown content that has been (independently) verified at each stage of the supply chain, from the farm to the finished products. Organic Cotton is produced and certified to organic agricultural standards, which require practices to sustain ecosystems.

Our products made of Organic Cotton are certified by Control Union under certification number CU 1030092.

<https://textileexchange.org/standards/>

You can identify OCS certified products thanks to the OCS logo on the product pages.

For more information on Organic In Conversion Cotton click here

ORGANIC IN CONVERSION

Organic "In Conversion" Cotton is grown on land which has started the conversion to organic methods. Although farmers follow organic farming guidelines (no GMO, no chemicals, etc.), their soil can not yet be considered organic. This conversion period (up to 3 years) is very difficult for farmers, who experience economic and harvest consequences. Buying Organic "In Conversion" Cotton helps support farmers in transition, and allows brands to directly connect with farmers' communities offering better traceability of our cotton journey up to farm level.

You can identify Organic In Conversion Cotton certified products thanks to the Organic In Conversion Cotton logo on the product pages.

Certified by Control Union CU 1030092

RCS CERTIFICATION

The "Recycled Claim Standard/RCS" verifies recycled content and tracks it from the source to the final product. The RCS verifies the presence and amount of recycled material in a final product. This happens through input and chain-of-custody verification from a third party. It allows for the transparent, consistent and comprehensive independent evaluation and verification of recycled material content claims on products.

Our products made of Recycled Polyester are certified by Control Union under certification number CU 1030092.

<https://textileexchange.org/standards/>

You can identify RCS certified products thanks to the RCS logo on the product pages.

B&C
COLLECTION

inspired tomorrow_°

Our **B&C inspired tomorrow_°** products are created with an extra consideration for the planet: each piece is made of more sustainable materials, like Better Cotton, Organic In Conversion Cotton, Organic Cotton or Recycled Polyester.

At B&C we're committed to creating beautiful and fashionable garments at the best price in a sustainable way. All our products are made with care and consideration for the people who make them and for the environment.

Garments containing more sustainable materials can be found across the collection – just look for our green **inspired tomorrow_°** labels!

So, what do we count as **inspired tomorrow_°**?

To qualify for a green hang tag, a product must contain **sustainable materials, such as Better Cotton, Organic In Conversion Cotton, Organic Cotton or Recycled Polyester.**

To evaluate the materials, we use external certifications.

By choosing **B&C inspired tomorrow_°** products, you help us make the textile industry more sustainable!

B&C #inspire E150_°

B&C #INSPIRE E150_° /DUO - THE ORGANIC IN CONVERSION VERSION OF OUR BESTSELLER B&C #E150 - 100% PRE-SHRUNK RING-SPUN COMBED CERTIFIED ORGANIC OR ORGANIC IN CONVERSION COTTON

The letter on size chip is in green

The label is printed in green

EASY BRANDING SOLUTION: B&C NO LABEL SOLUTION & TEAR AWAY LABEL

The B&C #inspire T-shirts have no brand label located in the collar and, to make your life easier, a size chip only. To optimise efficiency when sorting your B&C garments, we differentiated men/unisex and women styles. For men and unisex styles, size chip is black when for women it is white. The Tear Away label (made of Recycled paper), with all mandatory information following EU regulation, is in back bottom hem.

Very smooth and soft surface for perfect printing results

Tested and approved for all standard printing techniques applicable on Cotton

PRINTABILITY EXCELLENCE

When screen printing a polo shirt, the quality of the piqué is crucial. If you want to achieve a faultless screen print, you need the smoothest, most even surface and the least hairy yarn possible. This will ensure the perfect detailing and the best end-result of your design.

Not all piqués can say the same!

B&C fine piqué

24 COLOURS IN DUO

THE B&C SAFRAN AND B&C HEAVYMILL POLO SHIRTS 100% RING-SPUN COMBED COTTON

The unique superior quality of **B&C Fine Piqué** has an ultra-tight honeycomb structure, giving a perfectly smooth surface for decoration.

Tested and approved for all decoration techniques

- Digital printing (DTG)
- Waterbased screenprinting
- Discharge screenprinting
- Plastisol screenprinting

EASY BRANDING SOLUTION: B&C NO LABEL SOLUTION & TEAR AWAY LABEL

The 2 B&C Inspire Polo shirts have no brand label located in the collar and, to make your life easier, a size chip only. To optimise efficiency when sorting your B&C garments, we differentiated men/unisex and women styles. For men and unisex styles, size chip is black when for women it is white. The letter on size chip is in green.

This Easy branding solution allows you to complete the customisation of your Polo shirt.

Thanks to the B&C No Label solution and the Tear Away label (made of Recycled paper), the UNIQUE and fully personalised line you are dreaming of is already waiting for you. To enable you to follow all EU regulations, the composition label (complying with mandatory information and EU languages rules) is located on the left side seam of the style.

20 COLOURS IN DUO

THE B&C INSPIRE POLO SHIRTS

100% CERTIFIED ORGANIC OR ORGANIC IN CONVERSION
COTTON PRE-SHRUNK RING-SPUN

PREMIUM PRINTABILITY

By using only ring-spun cotton yarns, the surface is highly clean, uniform and extra smooth. Soft to the touch, the ring-spun cotton ensures also a great comfort to the wearer. Its piqué is tight to offer a great surface for decoration.

Tested and approved for all decoration techniques

- Digital printing (DTG)
- Waterbased screenprinting
- Discharge screenprinting

Exceptional cotton printability, polyester resistance.

Perfect printability, great appearance, durability and enhanced comfort are the natural qualities of the B&C PST sweatshirts.

Thanks to the 100% ring-spun combed cotton faced fabric, every B&C PST sweatshirt has a premium matt appearance, soft hand feel, excellent pilling resistance and maximum comfort.

B&C PST sweatshirts

B&C Perfect Sweat Technology

The PST sweatshirts are made with high quality combed Cotton faced fabric offering perfect printability, premium handfeel and unbeatable durability.

The outer layer

100% cotton layer providing a luxurious handfeel & appearance, enhanced printing surface & excellent pilling resistance.

Link between the 2 layers

A continuous polyester filament for excellent stability wash after wash.

The inner layer

Brushed cotton/polyester blend for ultimate comfort and resistance.

PRINTABILITY EXCELLENCE

Print a B&C PST sweatshirt like you would print a B&C 100% cotton t-shirt

Thanks to PST exceptional cotton printability and its smooth surface, print our B&C PST sweatshirt just like a classic 100% combed cotton T-shirt!

With the high-end quality manufacturing, **unbeatable comfort** and up-to-date cut, it is the perfect partner for any **demanding jobs** whether your employees perform **indoor or outdoor**.

B&C SHARP LSL /WOMEN p. 168

B&C SHARP SSL /MEN p. 169

LAB TESTS

B&C SHIRTS ARE MADE TO LAST

B&C styles are intensively tested before, during and after production.

We need to make sure the garments you choose for your teams and staff have the right performance and high quality that meets your business requirements.

This is why we regularly carry out independent test labs with accredited laboratories on our stock of shirts.

WHAT ARE WE TESTING ?

- ✓ **FABRIC PERFORMANCE** 
- ✓ **COLOUR FASTNESS** 
after wash and against light
- ✓ **DIMENSIONAL STABILITY** 
low shrinkage
- ✓ **COLOUR BLEEDING** 
- ✓ **FABRIC RESISTANCE TO TENSION** 
- ✓ **PILLING** 
- ✓ **SEAMS RESISTANCE TO TENSION** 

CONCLUSION

- B&C SHIRT FABRICS SUCCEED IN ALL POINTS WITH A HIGH SCORE -
(REGULARLY ABOVE AVERAGE)

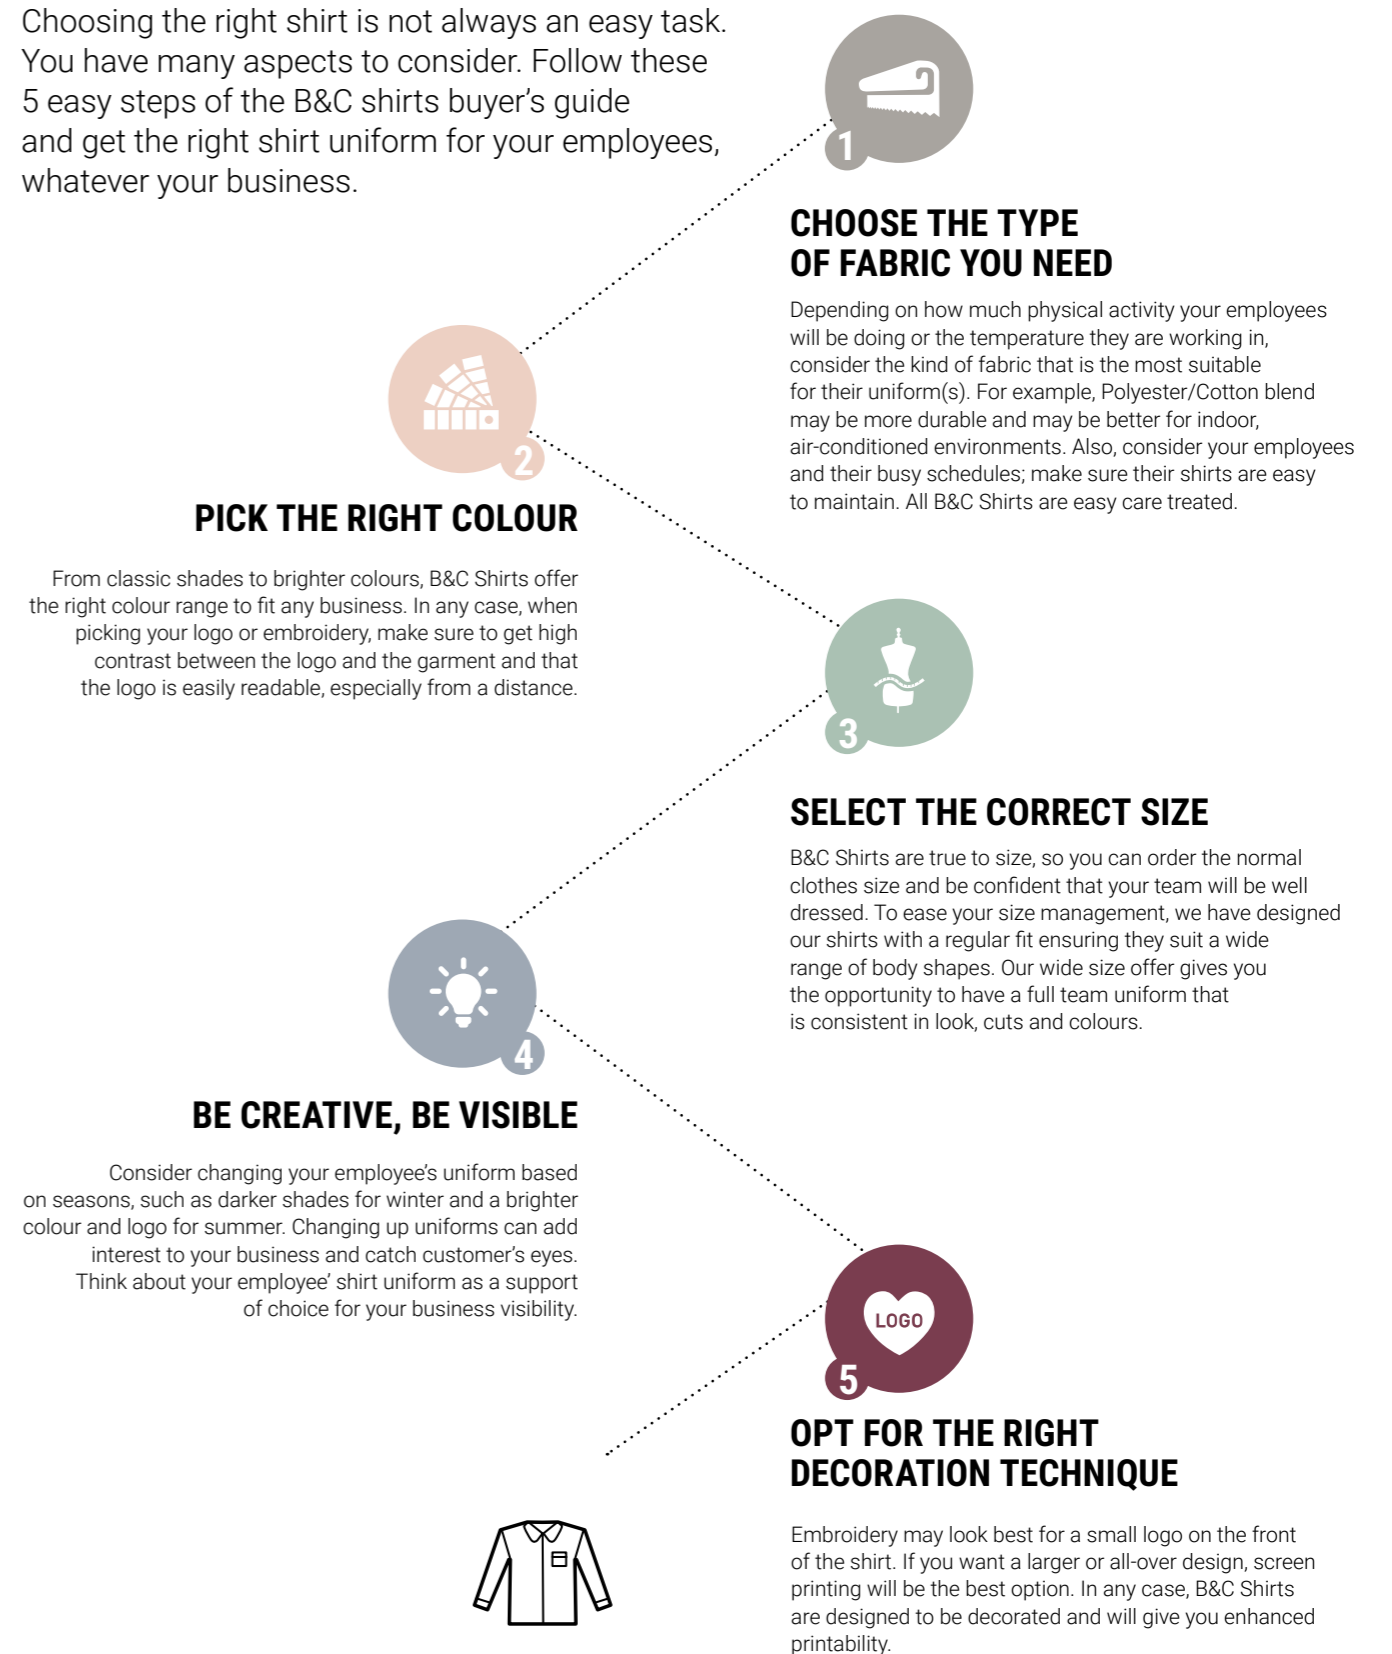

Through this process, B&C guarantees that the styles you buy are made of high quality fabrics that are durable and easy to care for.

It also allows B&C Collection to guarantee that you can be confident each repeat order will be identical, whatever the timeframe.

THE SHIRT BUYER'S GUIDE

5 STEPS TO GET THE RIGHT SHIRT FOR YOUR BUSINESS

Choosing the right shirt is not always an easy task. You have many aspects to consider. Follow these 5 easy steps of the B&C shirts buyer's guide and get the right shirt uniform for your employees, whatever your business.

IGNORE THE WEATHER, ENJOY THE MOMENT

Working outside, cycling, climbing or just walking in the city, B&C Softshell jackets are ideal for a wide range of outdoor activities.

WATERPROOF

Wet fabrics rob the body of warmth. By keeping water out, the durably waterproof B&C Softshell Jackets prevent heat loss, so the wearer stays dry and comfortable, whatever the conditions.

WINDPROOF

Even light winds can penetrate most fabrics, this can be chilling and uncomfortable. Thanks to their inner membrane, B&C Softshell Jackets are windproof, to keep the wearer warm.

BREATHABLE

Good insulation is also about ensuring that body moisture can effectively escape, keeping the wearer dry on the inside too. The breathable membrane at the heart of the B&C Softshell fabric ensures that moisture evaporates easily, even during exercise.

PERFECT PROTECTION

The strength of the B&C Softshell Jackets lies in their 3-layer construction. A waterproof, windproof and breathable membrane is bonded both to the outer fabric and the inner lining. The benefit: no movement between the layers, which means less wear and tear and enhanced durability.

B&C OUTERWEAR UNIT

DECORATION MADE EASY BY B&C

To make designs stand up, decorators need beautiful, premium quality and easy to print products. Our aim is to make the decorators happy by proposing a collection that provides the best canvas for printing or embroidery.

Each style of the B&C Outerwear Unit is designed to be decorated and to ensure great brand visibility.

OPTIMISED PRINT AREA

Decoration areas have been optimised on every style, to make sure you can make your customer's brand or message stand out.

EASY ACCESS SOLUTION

B&C Jackets are equipped with hidden entries to give easy access for decoration and avoid any limitations - that you would expect from a lining or padding - without compromising look, finishing and quality.

Display your ideas on the back, on the front and in some cases on the sleeves too.

Embroidery on Polyester rip-stop (B&C Shelter Pro)

Screen Printing on Nylon (B&C Sirocco)

Screen Printing on Softshell (B&C Hooded Softshell)

B&C sustainability report

inspired tomorrow_°

Our commitment to sustainability began 25 years ago and has only grown stronger over time, in our production and operating methods, in the content of our products and, of course, in our partnerships with the biggest environmental and supporting fair fashion development organisations.

In the last two years, we have taken another step forward by appointing **4 in-house staff members whose mission is entirely dedicated to sustainability issues.**

SUSTAINABLE DEVELOPMENT GOALS

We have also become a signatory to the United Nation Sustainable Development Goals, which will undoubtedly guide us in the future.

The entire B&C collection is produced, transported or stored in a way that is more respectful for people and the planet (using less water, fewer pesticides or less energy). It is with this in mind, with great pride for the projects already realised and great motivation for future challenges, that **we publish our first sustainability report this year.**

We strongly believe in a holistic approach that considers ecological, social and economic dimensions.

Discover our commitments, our achievements, our responsible purchasing practices, our code of conduct or the way our partner factories are audited, our certifications, our memberships and much more.

we strongly believe in a holistic approach that considers ecological, social and economic dimensions
